

# Missouri Historical Society Museum

## Project Overview

This 92,000 ft<sup>2</sup> (8,500 m<sup>2</sup>) expansion and 37,000 ft<sup>2</sup> (3,400 m<sup>2</sup>) renovation to the Missouri Historical Society's Museum is a three-level addition, connected to the original 1913 Beaux Arts Jefferson Memorial building by glass corridors and skywalks. Priorities in the design are energy conservation, integration of the designed system with the earth's ecosystems, use of natural systems wherever possible, and use of natural light.

**Location:**

St. Louis Missouri

United States

**Project Owner:**

Missouri Historical Society

**Submitting Architect:**

Hellmuth, Obata + Kassabaum Inc.

**Project Site:**

Previously Developed Land

**Project Site Context/Setting:**

Urban

**Other Building Description:**

Both new and renovation
